Product datasheet for RC203246L1V

SFTPC (NM_003018) Human Tagged ORF Clone Lentiviral Particle

Product data:

| Product Type: | Lentiviral Particles |
|------------------------------|---|
| Product Name: | SFTPC (NM_003018) Human Tagged ORF Clone Lentiviral Particle |
| Symbol: | SFTPC |
| Synonyms: | BRICD6; PSP-C; SFTP2; SMDP2; SP-C; SP5 |
| Mammalian Cell Selection: | None |
| Vector: | pLenti-C-Myc-DDK (PS100064) |
| Tag: | Myc-DDK |
| ACCN: | NM_003018 |
| ORF Size: | 591 bp |
| ORF Nucleotide Sequence: | The ORF insert of this clone is exactly the same as(RC203246). |
| OTI Disclaimer: | The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. <u>More info</u> |
| OTI Annotation: | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene. |
| RefSeq: | <u>NM 003018.2</u> , <u>NP 003009.1</u> |
| RefSeq Size: | 989 bp |
| RefSeq ORF: | 594 bp |
| Locus ID: | 6440 |
| UniProt ID: | <u>P11686</u> |
| Cytogenetics: | 8p21.3 |
| Protein Families: | Secreted Protein, Transmembrane |
| MW: | 21.1 kDa |

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2022 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

SFTPC (NM_003018) Human Tagged ORF Clone Lentiviral Particle – RC203246L1V

Gene Summary:This gene encodes the pulmonary-associated surfactant protein C (SPC), an extremely
hydrophobic surfactant protein essential for lung function and homeostasis after birth.
Pulmonary surfactant is a surface-active lipoprotein complex composed of 90% lipids and
10% proteins which include plasma proteins and apolipoproteins SPA, SPB, SPC and SPD. The
surfactant is secreted by the alveolar cells of the lung and maintains the stability of
pulmonary tissue by reducing the surface tension of fluids that coat the lung. Multiple
mutations in this gene have been identified, which cause pulmonary surfactant metabolism
dysfunction type 2, also called pulmonary alveolar proteinosis due to surfactant protein C
deficiency, and are associated with interstitial lung disease in older infants, children, and
adults. Alternatively spliced transcript variants encoding different protein isoforms have been
identified.[provided by RefSeq, Feb 2010]
