## Artemis (DCLRE1C) (NM 022487) Human Tagged ORF Clone Lentiviral Particle

**Product data:** 

Product Type: Lentiviral Particles

Product Name: Artemis (DCLRE1C) (NM 022487) Human Tagged ORF Clone Lentiviral Particle

Symbol: Artemis

**Synonyms:** A-SCID; DCLREC1C; RS-SCID; SCIDA; SNM1C

Mammalian Cell

Selection:

Puromycin

**Vector:** pLenti-C-mGFP-P2A-Puro (PS100093)

Tag: mGFP

**ACCN:** NM\_022487 **ORF Size:** 1731 bp

**ORF Nucleotide** 

The ORF insert of this clone is exactly the same as(RC203407).

Sequence:

OTI Disclaimer: The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This

naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing

variants is recommended prior to use. More info

**OTI Annotation:** This clone was engineered to express the complete ORF with an expression tag. Expression

varies depending on the nature of the gene.

**RefSeg:** NM 022487.2

 RefSeq Size:
 6242 bp

 RefSeq ORF:
 1734 bp

 Locus ID:
 64421

 UniProt ID:
 Q96SD1

 Cytogenetics:
 10p13

**Protein Families:** Druggable Genome

**Protein Pathways:** Cell cycle, Non-homologous end-joining, Primary immunodeficiency

**MW:** 65.3 kDa

ORIGENE

**Gene Summary:** This gene encodes a nuclear protein that is involved in V(D)J recombination and DNA repair.

The encoded protein has single-strand-specific 5'-3' exonuclease activity; it also exhibits endonuclease activity on 5' and 3' overhangs and hairpins. The protein also functions in the regulation of the cell cycle in response to DNA damage. Mutations in this gene can cause Athabascan-type severe combined immunodeficiency (SCIDA) and Omenn syndrome. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Jan 2014]
