## DCUN1D1 (NM\_020640) Human Tagged ORF Clone Lentiviral Particle

**Product data:** 

**Product Type:** Lentiviral Particles

Product Name: DCUN1D1 (NM 020640) Human Tagged ORF Clone Lentiviral Particle

Symbol: DCUN1D1

Synonyms: DCNL1; DCUN1L1; RP42; SCCRO; SCRO; Tes3

**Mammalian Cell** 

Selection:

None

**Vector:** pLenti-C-Myc-DDK (PS100064)

Tag: Myc-DDK
ACCN: NM 020640

ORF Size: 777 bp

**ORF Nucleotide** 

The ORF insert of this clone is exactly the same as(RC203427).

Sequence:
OTI Disclaimer:

The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing

variants is recommended prior to use. More info

**OTI Annotation:** This clone was engineered to express the complete ORF with an expression tag. Expression

varies depending on the nature of the gene.

**RefSeg:** NM 020640.2

 RefSeq Size:
 3192 bp

 RefSeq ORF:
 780 bp

 Locus ID:
 54165

 UniProt ID:
 Q96GG9

 Cytogenetics:
 3q26.33

 Domains:
 DUF298

**Protein Families:** Druggable Genome

MW: 30.1 kDa

Gene Summary:

Part of an E3 ubiquitin ligase complex for neddylation. Promotes neddylation of cullin components of E3 cullin-RING ubiquitin ligase complexes. Acts by binding to cullin-RBX1 complexes in the cytoplasm and promoting their nuclear translocation, enhancing recruitment of E2-NEDD8 (UBE2M-NEDD8) thioester to the complex, and optimizing the orientation of proteins in the complex to allow efficient transfer of NEDD8 from the E2 to the cullin substrates. Involved in the release of inhibitory effets of CAND1 on cullin-RING ligase E3 complex assembly and activity (PubMed:25349211, PubMed:28581483). Acts also as an oncogene facilitating malignant transformation and carcinogenic progression (By similarity). [UniProtKB/Swiss-Prot Function]
