Product datasheet for RC204287L4V

RAP2B (NM_002886) Human Tagged ORF Clone Lentiviral Particle

Product data:

| Product Type: | Lentiviral Particles |
|------------------------------|---|
| Product Name: | RAP2B (NM_002886) Human Tagged ORF Clone Lentiviral Particle |
| Symbol: | RAP2B |
| Mammalian Cell Selection: | Puromycin |
| Vector: | pLenti-C-mGFP-P2A-Puro (PS100093) |
| Tag: | mGFP |
| ACCN: | NM_002886 |
| ORF Size: | 549 bp |
| ORF Nucleotide Sequence: | The ORF insert of this clone is exactly the same as(RC204287). |
| OTI Disclaimer: | The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. <u>More info</u> |
| OTI Annotation: | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene. |
| RefSeq: | <u>NM 002886.2</u> |
| RefSeq Size: | 8413 bp |
| RefSeq ORF: | 552 bp |
| Locus ID: | 5912 |
| UniProt ID: | <u>P61225</u> |
| Cytogenetics: | 3q25.2 |
| Domains: | ras, RAS, RHO, RAB |
| Protein Families: | Druggable Genome |
| MW: | 20.5 kDa |

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2022 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

Gene Summary: This intronless gene belongs to a family of RAS-related genes. The proteins encoded by these genes share approximately 50% amino acid identity with the classical RAS proteins and have numerous structural features in common. The most striking difference between the RAP and RAS proteins resides in their 61st amino acid: glutamine in RAS is replaced by threonine in RAP proteins. Evidence suggests that this protein may be polyisoprenylated and palmitoylated. [provided by RefSeq, Jul 2008]
