

Product datasheet for **RC206034L4V**

PPEF1 (NM_006240) Human Tagged ORF Clone Lentiviral Particle

Product data:

| | |
|---------------------------|--|
| Product Type: | Lentiviral Particles |
| Product Name: | PPEF1 (NM_006240) Human Tagged ORF Clone Lentiviral Particle |
| Symbol: | PPEF1 |
| Synonyms: | PP7; PPEF; PPP7C; PPP7CA |
| Mammalian Cell Selection: | Puromycin |
| Vector: | pLenti-C-mGFP-P2A-Puro (PS100093) |
| Tag: | mGFP |
| ACCN: | NM_006240 |
| ORF Size: | 1959 bp |
| ORF Nucleotide Sequence: | The ORF insert of this clone is exactly the same as(RC206034). |
| OTI Disclaimer: | The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. More info |
| OTI Annotation: | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene. |
| RefSeq: | NM_006240.2 |
| RefSeq Size: | 2873 bp |
| RefSeq ORF: | 1962 bp |
| Locus ID: | 5475 |
| UniProt ID: | O14829 |
| Cytogenetics: | Xp22.13 |
| Domains: | IQ, EFh, Metallophos, PP2Ac |
| Protein Families: | Druggable Genome, Phosphatase |

MW: 75.8 kDa

Gene Summary: This gene encodes a member of the serine/threonine protein phosphatase with EF-hand motif family. The protein contains a protein phosphatase catalytic domain, and at least two EF-hand calcium-binding motifs in its C terminus. Although its substrate(s) is unknown, the encoded protein has been suggested to play a role in specific sensory neuron function and/or development. This gene shares high sequence similarity with the *Drosophila* retinal degeneration C (*rdgC*) gene. Several alternatively spliced transcript variants, each encoding a distinct isoform, have been described. [provided by RefSeq, Jul 2008]
