## Product datasheet for RC206669L4V

## Mitochondrial Ferritin (FTMT) (NM\_177478) Human Tagged ORF Clone Lentiviral Particle

## **Product data:**

| Product Type:                | Lentiviral Particles  |
|------------------------------|---|
| Product Name:                | Mitochondrial Ferritin (FTMT) (NM_177478) Human Tagged ORF Clone Lentiviral Particle  |
| Symbol:                      | Mitochondrial Ferritin  |
| Synonyms:                    | MTF   |
| Mammalian Cell<br>Selection: | Puromycin   |
| Vector:                      | pLenti-C-mGFP-P2A-Puro (PS100093)   |
| Tag:                         | mGFP  |
| ACCN:                        | NM_177478   |
| ORF Size:                    | 726 bp  |
| ORF Nucleotide<br>Sequence:  | The ORF insert of this clone is exactly the same as(RC206669).  |
| OTI Disclaimer:              | The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. <u>More info</u> |
| OTI Annotation:              | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene.  |
| RefSeq:                      | <u>NM 177478.1</u>  |
| RefSeq Size:                 | 894 bp  |
| RefSeq ORF:                  | 729 bp  |
| Locus ID:                    | 94033   |
| UniProt ID:                  | <u>Q8N4E7</u>   |
| Cytogenetics:                | 5q23.1  |
| Protein Pathways:            | Porphyrin and chlorophyll metabolism  |
| MW:                          | 27.5 kDa  |

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2023 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

Gene Summary:Stores iron in a soluble, non-toxic, readily available form. Important for iron homeostasis. Has<br/>ferroxidase activity. Iron is taken up in the ferrous form and deposited as ferric hydroxides<br/>after oxidation.[UniProtKB/Swiss-Prot Function]

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2023 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US
