## CYP51A1 (NM 000786) Human Tagged ORF Clone Lentiviral Particle

**Product data:** 

**Product Type:** Lentiviral Particles

**Product Name:** CYP51A1 (NM\_000786) Human Tagged ORF Clone Lentiviral Particle

Symbol:

CP51; CYP51; CYPL1; LDM; P450-14DM; P450L1 Synonyms:

**Mammalian Cell** 

Selection:

Puromycin

Vector: pLenti-C-Myc-DDK-P2A-Puro (PS100092)

Tag: Myc-DDK NM 000786 ACCN: **ORF Size:** 1527 bp

OTI Disclaimer:

**ORF Nucleotide** 

Sequence:

**Domains:** 

The ORF insert of this clone is exactly the same as(RC207078).

The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through

naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing

variants is recommended prior to use. More info

**OTI Annotation:** This clone was engineered to express the complete ORF with an expression tag. Expression

varies depending on the nature of the gene.

RefSeq: NM 000786.2

RefSeq Size: 3208 bp RefSeq ORF: 1530 bp Locus ID: 1595 **UniProt ID:** Q16850 Cytogenetics: 7q21.2

**Protein Families:** Druggable Genome, P450, Transmembrane

p450

## CYP51A1 (NM\_000786) Human Tagged ORF Clone Lentiviral Particle - RC207078L3V

**Protein Pathways:** Metabolic pathways, Steroid biosynthesis

**MW:** 57.3 kDa

**Gene Summary:** This gene encodes a member of the cytochrome P450 superfamily of enzymes. The

cytochrome P450 proteins are monooxygenases which catalyze many reactions involved in drug metabolism and synthesis of cholesterol, steroids and other lipids. This endoplasmic reticulum protein participates in the synthesis of cholesterol by catalyzing the removal of the 14alpha-methyl group from lanosterol. Homologous genes are found in all three eukaryotic phyla, fungi, plants, and animals, suggesting that this is one of the oldest cytochrome P450 genes. Two transcript variants encoding different isoforms have been found for this gene.
