	CTRP4 (C1QTNF4) (NM_031909) Human Tagged ORF Clone Lentiviral Particle – RC207458L4V
MW:	35.3 kDa
Gene Summary:	May be involved in the regulation of the inflammatory network. Its role as pro- or anti- inflammatory seems to be context dependent (PubMed:21658842, PubMed:27086950). Seems to have some role in regulating food intake and energy balance when administered in the brain. This effect is sustained over a two-day period, and it is accompanied by decreased expression of orexigenic neuropeptides in the hypothalamus 3 h post-injection (By similarity). [UniProtKB/Swiss-Prot Function]
