PACRG (NM_001080379) Human Tagged ORF Clone Lentiviral Particle

Product data:

Product Type: Lentiviral Particles

Product Name: PACRG (NM 001080379) Human Tagged ORF Clone Lentiviral Particle

Symbol: PACRG

Synonyms: GLUP; HAK005771; PACRG2.1; PARK2CRG

Mammalian Cell

Selection:

Puromycin

Vector: pLenti-C-mGFP-P2A-Puro (PS100093)

Tag: mGFP

ACCN: NM_001080379

ORF Size: 771 bp

ORF Nucleotide

The ORF insert of this clone is exactly the same as(RC208166).

Sequence:

OTI Disclaimer: The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through

naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing

variants is recommended prior to use. More info

OTI Annotation: This clone was engineered to express the complete ORF with an expression tag. Expression

varies depending on the nature of the gene.

RefSeq: NM 001080379.1, NP 001073848.1

 RefSeq Size:
 1627 bp

 RefSeq ORF:
 774 bp

 Locus ID:
 135138

 UniProt ID:
 Q96M98

Cytogenetics: 6q26

Protein Families: Druggable Genome

MW: 29.3 kDa

Gene Summary:

This gene encodes a protein that is conserved across metazoans. In vertebrates, this gene is linked in a head-to-head arrangement with the adjacent parkin gene, which is associated with autosomal recessive juvenile Parkinson's disease. These genes are co-regulated in various tissues and they share a bi-directional promoter. Both genes are associated with susceptibility to leprosy. The parkin co-regulated gene protein forms a large molecular complex with chaperones, including heat shock proteins 70 and 90, and chaperonin components. This protein is also a component of Lewy bodies in Parkinson's disease patients, and it suppresses unfolded Pael receptor-induced neuronal cell death. Multiple transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Jul 2008]
