| OTI Disclaimer:              | Due to the inherent nature of this plasmid, standard methods to replicate additional<br>amounts of DNA in E. coli are highly likely to result in mutations and/or rearrangements.<br>Therefore, OriGene does not guarantee the capability to replicate this plasmid DNA.<br>Additional amounts of DNA can be purchased from OriGene with batch-specific, full-sequence<br>verification at a reduced cost. Please contact our customer care team at<br><u>custsupport@origene.com</u> or by calling 301.340.3188 option 3 for pricing and delivery.<br>The molecular sequence of this clone aligns with the gene accession number as a point of<br>reference only. However, individual transcript sequences of the same gene can differ through<br>naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This<br>clone is substantially in agreement with the reference, but a complete review of all prevailing |

| OTI Annotation:              | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene.  |
| RefSeq:                      | <u>NM 004540.2</u>  |
| RefSeq Size:                 | 3699 bp   |
| RefSeq ORF:                  | 2514 bp   |
