

Product datasheet for **RC208290L2V**

HCST (NM_014266) Human Tagged ORF Clone Lentiviral Particle

Product data:

| | |
|---------------------------|--|
| Product Type: | Lentiviral Particles |
| Product Name: | HCST (NM_014266) Human Tagged ORF Clone Lentiviral Particle |
| Symbol: | HCST |
| Synonyms: | DAP10; KAP10; PIK3AP |
| Mammalian Cell Selection: | None |
| Vector: | pLenti-C-mGFP (PS100071) |
| Tag: | mGFP |
| ACCN: | NM_014266 |
| ORF Size: | 279 bp |
| ORF Nucleotide Sequence: | The ORF insert of this clone is exactly the same as(RC208290). |
| OTI Disclaimer: | The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. More info |
| OTI Annotation: | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene. |
| RefSeq: | NM_014266.3 |
| RefSeq Size: | 524 bp |
| RefSeq ORF: | 282 bp |
| Locus ID: | 10870 |
| UniProt ID: | Q9UBK5 |
| Cytogenetics: | 19q13.12 |
| Protein Families: | Druggable Genome, Transmembrane |
| Protein Pathways: | Natural killer cell mediated cytotoxicity |

MW: 9.5 kDa

Gene Summary: This gene encodes a transmembrane signaling adaptor that contains a YxxM motif in its cytoplasmic domain. The encoded protein may form part of the immune recognition receptor complex with the C-type lectin-like receptor NKG2D. As part of this receptor complex, this protein may activate phosphatidylinositol 3-kinase dependent signaling pathways through its intracytoplasmic YxxM motif. This receptor complex may have a role in cell survival and proliferation by activation of NK and T cell responses. Alternative splicing results in two transcript variants encoding different isoforms. [provided by RefSeq, Jul 2008]
