

## Product datasheet for **RC209272L4V**

### Factor D (CFD) (NM\_001928) Human Tagged ORF Clone Lentiviral Particle

#### Product data:

Product Type:	Lentiviral Particles
Product Name:	Factor D (CFD) (NM_001928) Human Tagged ORF Clone Lentiviral Particle
Symbol:	CFD
Synonyms:	ADIPSIN; ADN; DF; PFD
Mammalian Cell Selection:	Puromycin
Vector:	pLenti-C-mGFP-P2A-Puro (PS100093)
Tag:	mGFP
ACCN:	NM_001928
ORF Size:	759 bp
ORF Nucleotide Sequence:	The ORF insert of this clone is exactly the same as(RC209272).
OTI Disclaimer:	The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. <a href="#">More info</a>
OTI Annotation:	This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene.
RefSeq:	<a href="#">NM_001928.2</a>
RefSeq Size:	1173 bp
RefSeq ORF:	762 bp
Locus ID:	1675
UniProt ID:	<a href="#">P00746</a>
Cytogenetics:	19p13.3
Domains:	Tryp_Spc
Protein Families:	Druggable Genome, Protease, Secreted Protein

**Protein Pathways:** Complement and coagulation cascades

**MW:** 27 kDa

**Gene Summary:** This gene encodes a member of the S1, or chymotrypsin, family of serine peptidases. This protease catalyzes the cleavage of factor B, the rate-limiting step of the alternative pathway of complement activation. This protein also functions as an adipokine, a cell signaling protein secreted by adipocytes, which regulates insulin secretion in mice. Mutations in this gene underlie complement factor D deficiency, which is associated with recurrent bacterial meningitis infections in human patients. Alternative splicing of this gene results in multiple transcript variants. At least one of these variants encodes a preproprotein that is proteolytically processed to generate the mature protease. [provided by RefSeq, Nov 2015]
