## 12 Lipoxygenase (ALOX12) (NM\_000697) Human Tagged ORF Clone Lentiviral Particle

**Product data:** 

Product Type: Lentiviral Particles

Product Name: 12 Lipoxygenase (ALOX12) (NM\_000697) Human Tagged ORF Clone Lentiviral Particle

Symbol: 12 Lipoxygenase

Synonyms: 12-LOX; 12S-LOX; LOG12

Mammalian Cell

Selection:

Puromycin

**Vector:** pLenti-C-mGFP-P2A-Puro (PS100093)

Tag: mGFP

**ACCN:** NM\_000697 **ORF Size:** 1989 bp

**ORF Nucleotide** 

The ORF insert of this clone is exactly the same as(RC210211).

Sequence:
OTI Disclaimer:

The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing

variants is recommended prior to use. More info

**OTI Annotation:** This clone was engineered to express the complete ORF with an expression tag. Expression

varies depending on the nature of the gene.

**RefSeg:** NM 000697.1

 RefSeq Size:
 2335 bp

 RefSeq ORF:
 1992 bp

 Locus ID:
 239

 UniProt ID:
 P18054

 Cytogenetics:
 17p13.1

**Protein Families:** Druggable Genome

**Protein Pathways:** Arachidonic acid metabolism, Metabolic pathways

## 12 Lipoxygenase (ALOX12) (NM\_000697) Human Tagged ORF Clone Lentiviral Particle – RC210211L4V

**MW:** 75.5 kDa

**Gene Summary:** 

This gene encodes a member of the lipoxygenase family of proteins. The encoded enzyme acts on different polyunsaturated fatty acid substrates to generate bioactive lipid mediators including eicosanoids and lipoxins. The encoded enzyme and its reaction products have been shown to regulate platelet function. Elevated expression of this gene has been observed in pancreatic islets derived from human diabetes patients. Allelic variants in this gene may be associated with susceptibility to toxoplasmosis. Multiple pseudogenes of this gene have been identified in the human genome. [provided by RefSeq, Aug 2017]
