

Product datasheet for **RC211300L3V**

5HT5A receptor (HTR5A) (NM_024012) Human Tagged ORF Clone Lentiviral Particle

Product data:

| | |
|---------------------------|--|
| Product Type: | Lentiviral Particles |
| Product Name: | 5HT5A receptor (HTR5A) (NM_024012) Human Tagged ORF Clone Lentiviral Particle |
| Symbol: | 5HT5A receptor |
| Synonyms: | 5-HT5A |
| Mammalian Cell Selection: | Puromycin |
| Vector: | pLenti-C-Myc-DDK-P2A-Puro (PS100092) |
| Tag: | Myc-DDK |
| ACCN: | NM_024012 |
| ORF Size: | 1071 bp |
| ORF Nucleotide Sequence: | The ORF insert of this clone is exactly the same as(RC211300). |
| OTI Disclaimer: | The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. More info |
| OTI Annotation: | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene. |
| RefSeq: | NM_024012.2 |
| RefSeq Size: | 4572 bp |
| RefSeq ORF: | 1074 bp |
| Locus ID: | 3361 |
| UniProt ID: | P47898 |
| Cytogenetics: | 7q36.2 |
| Domains: | 7tm_1 |
| Protein Families: | Druggable Genome, GPCR, Transmembrane |

Protein Pathways: Calcium signaling pathway, Neuroactive ligand-receptor interaction

MW: 40.3 kDa

Gene Summary: The neurotransmitter serotonin (5-hydroxytryptamine, 5-HT) has been implicated in a wide range of psychiatric conditions and also has vasoconstrictive and vasodilatory effects. The gene described in this record is a member of 5-hydroxytryptamine (serotonin) receptor family and encodes a multi-pass membrane protein that functions as a receptor for 5-hydroxytryptamine and couples to G-proteins. This protein has been shown to function in part through the regulation of intracellular Ca²⁺ mobilization. [provided by RefSeq, Jul 2008]
