

Product datasheet for **RC211856L1V**

TACI (TNFRSF13B) (NM_012452) Human Tagged ORF Clone Lentiviral Particle

Product data:

Product Type:	Lentiviral Particles
Product Name:	TACI (TNFRSF13B) (NM_012452) Human Tagged ORF Clone Lentiviral Particle
Symbol:	TACI
Synonyms:	CD267; CVID; CVID2; IGAD2; RYZN; TACI; TNFRSF14B
Mammalian Cell Selection:	None
Vector:	pLenti-C-Myc-DDK (PS100064)
Tag:	Myc-DDK
ACCN:	NM_012452
ORF Size:	879 bp
ORF Nucleotide Sequence:	The ORF insert of this clone is exactly the same as(RC211856).
OTI Disclaimer:	The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. More info
OTI Annotation:	This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene.
RefSeq:	NM_012452.2
RefSeq Size:	1377 bp
RefSeq ORF:	882 bp
Locus ID:	23495
UniProt ID:	O14836
Cytogenetics:	17p11.2
Protein Families:	Druggable Genome, Transmembrane
Protein Pathways:	Cytokine-cytokine receptor interaction, Primary immunodeficiency

MW: 31.6 kDa

Gene Summary: The protein encoded by this gene is a lymphocyte-specific member of the tumor necrosis factor (TNF) receptor superfamily. It interacts with calcium-modulator and cyclophilin ligand (CAML). The protein induces activation of the transcription factors NFAT, AP1, and NF-kappa-B and plays a crucial role in humoral immunity by interacting with a TNF ligand. This gene is located within the Smith-Magenis syndrome region on chromosome 17. [provided by RefSeq, Jul 2008]

Product images:

[RC211856L1] was used to prepare Lentiviral particles using [TR30037] packaging kit. HEK293T cells were transduced with RC211856L1V particle to overexpress human TNFRSF13B-Myc-DDK fusion protein.
