

Product datasheet for **RC213319L1V**

NMBR (NM_002511) Human Tagged ORF Clone Lentiviral Particle

Product data:

| | |
|---------------------------|--|
| Product Type: | Lentiviral Particles |
| Product Name: | NMBR (NM_002511) Human Tagged ORF Clone Lentiviral Particle |
| Symbol: | NMBR |
| Synonyms: | BB1; BB1R; BRS1; NMB-R |
| Mammalian Cell Selection: | None |
| Vector: | pLenti-C-Myc-DDK (PS100064) |
| Tag: | Myc-DDK |
| ACCN: | NM_002511 |
| ORF Size: | 1170 bp |
| ORF Nucleotide Sequence: | The ORF insert of this clone is exactly the same as(RC213319). |
| OTI Disclaimer: | The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. More info |
| OTI Annotation: | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene. |
| RefSeq: | NM_002511.1 |
| RefSeq Size: | 1352 bp |
| RefSeq ORF: | 1173 bp |
| Locus ID: | 4829 |
| UniProt ID: | P28336 |
| Cytogenetics: | 6q24.1 |
| Protein Families: | Druggable Genome, GPCR, Transmembrane |
| Protein Pathways: | Neuroactive ligand-receptor interaction |

MW: 43.3 kDa

Gene Summary: This gene encodes a 7-transmembrane G protein-coupled receptor that binds neuromedin B, which is a growth factor and mitogen for gastrointestinal epithelial tissue and for normal and neoplastic lung. This receptor may play a role in smooth muscle contraction, neuronal responses, and the regulation of cell growth. Antagonists of this receptor have a potential therapeutic use in inhibiting tumor cell growth. Polymorphisms in this gene may be associated with a susceptibility for schizophrenia. Alternative splicing of this gene results in multiple transcript variants. [provided by RefSeq, Apr 2016]
