

Product datasheet for **RC213391L4V**

WARS2 (NM_201263) Human Tagged ORF Clone Lentiviral Particle

Product data:

| | |
|---------------------------|--|
| Product Type: | Lentiviral Particles |
| Product Name: | WARS2 (NM_201263) Human Tagged ORF Clone Lentiviral Particle |
| Symbol: | WARS2 |
| Synonyms: | mtTrpRS; NEMMLAS; TrpRS |
| Mammalian Cell Selection: | Puromycin |
| Vector: | pLenti-C-mGFP-P2A-Puro (PS100093) |
| Tag: | mGFP |
| ACCN: | NM_201263 |
| ORF Size: | 660 bp |
| ORF Nucleotide Sequence: | The ORF insert of this clone is exactly the same as(RC213391). |
| OTI Disclaimer: | The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. More info |
| OTI Annotation: | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene. |
| RefSeq: | NM_201263.2 , NP_957715.1 |
| RefSeq Size: | 2835 bp |
| RefSeq ORF: | 663 bp |
| Locus ID: | 10352 |
| UniProt ID: | Q9UGM6 |
| Cytogenetics: | 1p12 |
| Protein Families: | Druggable Genome |
| Protein Pathways: | Aminoacyl-tRNA biosynthesis, Tryptophan metabolism |

MW: 24.8 kDa

Gene Summary: Aminoacyl-tRNA synthetases catalyze the aminoacylation of tRNA by their cognate amino acid. Because of their central role in linking amino acids with nucleotide triplets contained in tRNAs, aminoacyl-tRNA synthetases are thought to be among the first proteins that appeared in evolution. Two forms of tryptophanyl-tRNA synthetase exist, a cytoplasmic form, named WARS, and a mitochondrial form, named WARS2. This gene encodes the mitochondrial tryptophanyl-tRNA synthetase. Two alternative transcripts encoding different isoforms have been described. [provided by RefSeq, Jul 2008]
