Product datasheet for RC214674L3V

CDC14B (NM_033331) Human Tagged ORF Clone Lentiviral Particle

Product data:

Product Type:	Lentiviral Particles
Product Name:	CDC14B (NM_033331) Human Tagged ORF Clone Lentiviral Particle
Symbol:	CDC14B
Synonyms:	Cdc14B1; Cdc14B2; CDC14B3; hCDC14B
Mammalian Cell Selection:	Puromycin
Vector:	pLenti-C-Myc-DDK-P2A-Puro (PS100092)
Tag:	Myc-DDK
ACCN:	NM_033331
ORF Size:	1494 bp
ORF Nucleotide Sequence:	The ORF insert of this clone is exactly the same as(RC214674).
OTI Disclaimer:	The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. <u>More info</u>
OTI Annotation:	This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene.
RefSeq:	<u>NM 033331.2</u>
RefSeq Size:	5589 bp
RefSeq ORF:	1497 bp
Locus ID:	8555
UniProt ID:	<u>O60729</u>
Cytogenetics:	9q22.32-q22.33
Domains:	Y_phosphatase, DSPc, PTPc_motif
Protein Families:	Druggable Genome, Phosphatase

GRIGENE CDC14B (NM_033331) Human Tagged ORF Clone Lentiviral Particle – RC214674L3V	
Protein Pathways:	Cell cycle
MW:	56.8 kDa
Gene Summary:	The protein encoded by this gene is a member of the dual specificity protein tyrosine phosphatase family. This protein is highly similar to Saccharomyces cerevisiae Cdc14, a protein tyrosine phosphatase involved in the exit of cell mitosis and initiation of DNA replication, which suggests the role in cell cycle control. This protein has been shown to interact with and dephosphorylates tumor suppressor protein p53, and is thought to regulate the function of p53. Alternative splice of this gene results in 3 transcript variants encoding distinct isoforms. [provided by RefSeq, Jul 2008]
