

## Product datasheet for **RC218569A1V**

### Human TARC (CCL17) (NM\_002987) AAV Particle

#### Product data:

**Product Type:** AAV Particles  
**Product Name:** Human TARC (CCL17) (NM\_002987) AAV Particle  
**Tag:** Myc-DDK  
**Symbol:** TARC  
**Synonyms:** A-152E5.3; ABCD-2; SCYA17; TARC  
**Mammalian Cell Selection:** None  
**Vector:** pAAV-AC-Myc-DDK (PS100089)  
**ORF Nucleotide Sequence:** >RC218569 ORF sequence

|---------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Buffer:       | PBS with 0.001% Pluronic F68                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Stability:    | AAV is stable for 1 year when stored at -80°C (long-term storage) or 2-3 weeks when stored at -20°C (short-term storage). Thaw the vial of AAV on ice prior to use and keep it on ice during the experiment. Thawed AAV can be stored at 4°C for 1-2 weeks. Whenever possible, particles should be aliquoted into single use portions to avoid repeated freeze/thaw cycles. Please aliquot at least 10ul per tube and use low protein binding tubes to avoid loss of virus. |
| RefSeq:       | <a href="#">NM_002987.2</a>                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
