

Product datasheet for RC219413L3V

OriGene Technologies, Inc.

9620 Medical Center Drive, Ste 200 Rockville, MD 20850, US Phone: +1-888-267-4436 https://www.origene.com techsupport@origene.com EU: info-de@origene.com CN: techsupport@origene.cn

COLQ (NM_080539) Human Tagged ORF Clone Lentiviral Particle

Product data:

Product Type: Lentiviral Particles

Product Name: COLQ (NM_080539) Human Tagged ORF Clone Lentiviral Particle

Symbol: COLQ

Synonyms: CMS5; EAD

Mammalian Cell Pu

Selection:

Puromycin

Vector: pLenti-C-Myc-DDK-P2A-Puro (PS100092)

Tag: Myc-DDK

ACCN: NM_080539

ORF Size: 1263 bp

ORF Nucleotide

The ORF insert of this clone is exactly the same as(RC219413).

OTI Disclaimer:

Sequence:

The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing

variants is recommended prior to use. More info

OTI Annotation: This clone was engineered to express the complete ORF with an expression tag. Expression

varies depending on the nature of the gene.

RefSeg: NM 080539.1

 RefSeq Size:
 2909 bp

 RefSeq ORF:
 1266 bp

 Locus ID:
 8292

 UniProt ID:
 Q9Y215

 Cytogenetics:
 3p25.1

Protein Families: Druggable Genome, Transmembrane

MW: 41.7 kDa

COLQ (NM_080539) Human Tagged ORF Clone Lentiviral Particle - RC219413L3V

Gene Summary:

This gene encodes the subunit of a collagen-like molecule associated with acetylcholinesterase in skeletal muscle. Each molecule is composed of three identical subunits. Each subunit contains a proline-rich attachment domain (PRAD) that binds an acetylcholinesterase tetramer to anchor the catalytic subunit of the enzyme to the basal lamina. Mutations in this gene are associated with endplate acetylcholinesterase deficiency. Multiple transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Jul 2008]
