RSK1 p90 (RPS6KA1) (NM 001006665) Human Tagged ORF Clone Lentiviral Particle

Product data:

Product Type: Lentiviral Particles

Product Name: RSK1 p90 (RPS6KA1) (NM_001006665) Human Tagged ORF Clone Lentiviral Particle

Symbol:

HU-1; MAPKAPK1; MAPKAPK1A; p90Rsk; RSK; RSK1 Synonyms:

Mammalian Cell

Puromycin

Selection:

Vector:

pLenti-C-mGFP-P2A-Puro (PS100093)

mGFP Tag:

NM 001006665 ACCN:

ORF Size: 2232 bp

ORF Nucleotide

The ORF insert of this clone is exactly the same as(RC219895).

Sequence:

Cytogenetics:

The molecular sequence of this clone aligns with the gene accession number as a point of OTI Disclaimer:

reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing

variants is recommended prior to use. More info

OTI Annotation: This clone was engineered to express the complete ORF with an expression tag. Expression

varies depending on the nature of the gene.

RefSeq: NM 001006665.1, NP 001006666.1

RefSeq Size: 3112 bp RefSeq ORF: 2235 bp Locus ID: 6195 **UniProt ID:** Q15418

1p36.11 **Protein Families:** Druggable Genome, Protein Kinase

RSK1 p90 (RPS6KA1) (NM_001006665) Human Tagged ORF Clone Lentiviral Particle - RC219895L4V

Protein Pathways: Long-term potentiation, MAPK signaling pathway, mTOR signaling pathway, Neurotrophin

signaling pathway, Oocyte meiosis, Progesterone-mediated oocyte maturation

MW: 83.8 kDa

Gene Summary: This gene encodes a member of the RSK (ribosomal S6 kinase) family of serine/threonine

kinases. This kinase contains 2 nonidentical kinase catalytic domains and phosphorylates various substrates, including members of the mitogen-activated kinase (MAPK) signalling pathway. The activity of this protein has been implicated in controlling cell growth and differentiation. Alternate transcriptional splice variants, encoding different isoforms, have

been characterized. [provided by RefSeq, Jul 2008]
