

## Product datasheet for RC221939L3V

## OriGene Technologies, Inc.

9620 Medical Center Drive, Ste 200 Rockville, MD 20850, US Phone: +1-888-267-4436 https://www.origene.com techsupport@origene.com EU: info-de@origene.com CN: techsupport@origene.cn

## C1GALT1 (NM\_020156) Human Tagged ORF Clone Lentiviral Particle

**Product data:** 

Product Type: Lentiviral Particles

**Product Name:** C1GALT1 (NM\_020156) Human Tagged ORF Clone Lentiviral Particle

Symbol: C1GALT1

**Synonyms:** C1GALT; T-synthase

Mammalian Cell

Selection:

Puromycin

**Vector:** pLenti-C-Myc-DDK-P2A-Puro (PS100092)

Tag: Myc-DDK
ACCN: NM\_020156

ORF Size: 1089 bp

**ORF Nucleotide** 

The ORF insert of this clone is exactly the same as(RC221939).

Sequence:
OTI Disclaimer:

The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing

variants is recommended prior to use. More info

**OTI Annotation:** This clone was engineered to express the complete ORF with an expression tag. Expression

varies depending on the nature of the gene.

**RefSeq:** <u>NM 020156.1</u>

 RefSeq Size:
 1794 bp

 RefSeq ORF:
 1092 bp

 Locus ID:
 56913

 UniProt ID:
 Q9NS00

**Cytogenetics:** 7p22.1-p21.3

**Protein Families:** Transmembrane

**Protein Pathways:** Metabolic pathways, O-Glycan biosynthesis

## C1GALT1 (NM\_020156) Human Tagged ORF Clone Lentiviral Particle - RC221939L3V

**MW:** 42 kDa

Gene Summary: The protein enco

The protein encoded by this gene generates the common core 1 O-glycan structure, Gal-beta-1-3GalNAc-R, by the transfer of Gal from UDP-Gal to GalNAc-alpha-1-R. Core 1 is a precursor for many extended mucin-type O-glycans on cell surface and secreted glycoproteins. Studies in mice suggest that this gene plays a key role in thrombopoiesis and kidney homeostasis.
