OAS3 (NM_006187) Human Tagged ORF Clone Lentiviral Particle

Product data:

Product Type: Lentiviral Particles

Product Name: OAS3 (NM_006187) Human Tagged ORF Clone Lentiviral Particle

Symbol: OAS3

Synonyms: p100; p100OAS

Mammalian Cell

Selection:

None

Vector: pLenti-C-Myc-DDK (PS100064)

Tag: Myc-DDK

ACCN: NM_006187

ORF Size: 3261 bp

ORF Nucleotide

Sequence:

The ORF insert of this clone is exactly the same as(RC222722).

OTI Disclaimer: Due to the inherent nature of this plasmid, standard methods to replicate additional amounts of DNA in E. coli are highly likely to result in mutations and/or rearrangements.

Therefore, OriGene does not guarantee the capability to replicate this plasmid DNA.

verification at a reduced cost. Please contact our customer care team at

custsupport@origene.com or by calling 301.340.3188 option 3 for pricing and delivery.

The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing

Additional amounts of DNA can be purchased from OriGene with batch-specific, full-sequence

variants is recommended prior to use. More info

OTI Annotation: This clone was engineered to express the complete ORF with an expression tag. Expression

varies depending on the nature of the gene.

RefSeq: <u>NM 006187.2</u>

RefSeq Size: 6646 bp RefSeq ORF: 3264 bp

OAS3 (NM_006187) Human Tagged ORF Clone Lentiviral Particle - RC222722L1V

Locus ID: 4940

 UniProt ID:
 Q9Y6K5

 Cytogenetics:
 12q24.13

 MW:
 121 kDa

Gene Summary: This gene encodes an enzyme included in the 2', 5' oligoadenylate synthase family. This

enzyme is induced by interferons and catalyzes the 2', 5' oligomers of adenosine in order to bind and activate RNase L. This enzyme family plays a significant role in the inhibition of cellular protein synthesis and viral infection resistance. [provided by RefSeq, Jul 2008]
