## Product datasheet for RC226884L2V

## MFSD2A (NM\_001136493) Human Tagged ORF Clone Lentiviral Particle

## **Product data:**

| Product Type:                | Lentiviral Particles  |
|------------------------------|---|
| Product Name:                | MFSD2A (NM_001136493) Human Tagged ORF Clone Lentiviral Particle  |
| Symbol:                      | MFSD2A  |
| Synonyms:                    | MCPH15; MFSD2; NEDMISBA; NLS1; SLC59A1  |
| Mammalian Cell<br>Selection: | None  |
| Vector:                      | pLenti-C-mGFP (PS100071)  |
| Tag:                         | mGFP  |
| ACCN:                        | NM_001136493  |
| ORF Size:                    | 1629 bp   |
| ORF Nucleotide<br>Sequence:  | The ORF insert of this clone is exactly the same as(RC226884).  |
| OTI Disclaimer:              | The molecular sequence of this clone aligns with the gene accession number as a point of reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing variants is recommended prior to use. <u>More info</u> |
| OTI Annotation:              | This clone was engineered to express the complete ORF with an expression tag. Expression varies depending on the nature of the gene.  |
| RefSeq:                      | <u>NM 001136493.2</u>   |
| RefSeq Size:                 | 2231 bp   |
| RefSeq ORF:                  | 1632 bp   |
| Locus ID:                    | 84879   |
| UniProt ID:                  | <u>Q8NA29</u>   |
| Cytogenetics:                | 1p34.2  |
| Protein Families:            | Transmembrane   |
| MW:                          | 60.2 kDa  |

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2022 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US Gene Summary:The protein encoded by this gene is a transmembrane protein and sodium-dependent<br/>lysophosphatidylcholine transporter. The encoded protein is involved in the establishment of<br/>the blood-brain barrier and is required for brain growth and function. Defects in this gene are<br/>a cause of a progressive microcephaly syndrome. [provided by RefSeq, Mar 2017]
