

## **Product datasheet for RG204339**

## GCC1 (NM\_024523) Human Tagged ORF Clone

#### **Product data:**

**Product Type:** Expression Plasmids

**Product Name:** GCC1 (NM\_024523) Human Tagged ORF Clone

Tag: TurboGFP

Symbol: GCC1

**Synonyms:** GCC1P; GCC88

Mammalian Cell Neomycin

Selection:

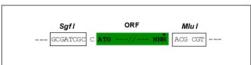

**Vector:** pCMV6-AC-GFP (PS100010)

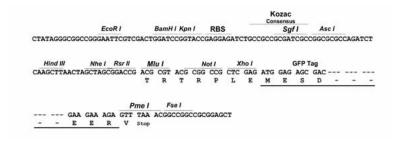

E. coli Selection: Ampicillin (100 ug/mL)

**Restriction Sites:** Sgfl-Mlul

**Cloning Scheme:** 

Cloning sites used for ORF Shuttling:

**ACCN:** NM\_024523

ORF Size: 2325 bp

**OriGene Technologies, Inc.** 9620 Medical Center Drive, Ste 200

### GCC1 (NM\_024523) Human Tagged ORF Clone - RG204339

**OTI Disclaimer:** The molecular sequence of this clone aligns with the gene accession number as a point of

> reference only. However, individual transcript sequences of the same gene can differ through naturally occurring variations (e.g. polymorphisms), each with its own valid existence. This clone is substantially in agreement with the reference, but a complete review of all prevailing

variants is recommended prior to use. More info

**OTI Annotation:** This clone was engineered to express the complete ORF with an expression tag. Expression

varies depending on the nature of the gene.

Components: The ORF clone is ion-exchange column purified and shipped in a 2D barcoded Matrix tube

containing 10ug of transfection-ready, dried plasmid DNA (reconstitute with 100 ul of water).

**Reconstitution Method:** 1. Centrifuge at 5,000xg for 5min.

2. Carefully open the tube and add 100ul of sterile water to dissolve the DNA.

3. Close the tube and incubate for 10 minutes at room temperature.

4. Briefly vortex the tube and then do a quick spin (less than 5000xg) to concentrate the liquid

at the bottom.

5. Store the suspended plasmid at -20°C. The DNA is stable for at least one year from date of

shipping when stored at -20°C.

Note: Plasmids are not sterile. For experiments where strict sterility is required, filtration with

0.22um filter is required.

RefSeq: NM 024523.6

RefSeq Size: 4152 bp RefSeq ORF: 2328 bp Locus ID: 79571

**Q96CN9** Cytogenetics: 7q32.1

GRIP Domains:

**UniProt ID:** 

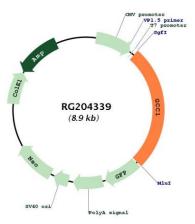

**Gene Summary:** The protein encoded by this gene is a peripheral membrane protein. It is sensitive to

> brefeldin A. This encoded protein contains a GRIP domain which is thought to be used in targeting. It may play a role in the organization of trans-Golgi network subcompartment

involved with membrane transport. [provided by RefSeq, Jul 2008]
