

Product datasheet for **SC122490**

TRIML1 (BC015684) Human Untagged Clone

Product data:

Product Type:	Expression Plasmids
Product Name:	TRIML1 (BC015684) Human Untagged Clone
Tag:	Tag Free
Symbol:	TRIML1
Synonyms:	FLJ36180; MGC138638; MGC138639; RNF209; tripartite motif family-like 1
Mammalian Cell Selection:	None
Vector:	<u>pCMV6-XL5</u>
E. coli Selection:	Ampicillin (100 ug/mL)

Fully Sequenced ORF: >OriGene sequence for BC015684 edited

Restriction Sites:	Please inquire
ACCN:	BC015684
Insert Size:	1265 bp
OTI Disclaimer:	Our molecular clone sequence data has been matched to the reference identifier above as a point of reference. Note that the complete sequence of our molecular clones may differ from the sequence published for this corresponding reference, e.g., by representing an alternative RNA splicing form or single nucleotide polymorphism (SNP).
Components:	The ORF clone is ion-exchange column purified and shipped in a 2D barcoded Matrix tube containing 10ug of transfection-ready, dried plasmid DNA (reconstitute with 100 ul of water).
Reconstitution Method:	<ol style="list-style-type: none"> 1. Centrifuge at 5,000xg for 5min. 2. Carefully open the tube and add 100ul of sterile water to dissolve the DNA. 3. Close the tube and incubate for 10 minutes at room temperature. 4. Briefly vortex the tube and then do a quick spin (less than 5000xg) to concentrate the liquid at the bottom. 5. Store the suspended plasmid at -20°C. The DNA is stable for at least one year from date of shipping when stored at -20°C.
RefSeq:	BC015684.1 , AAH15684.1
RefSeq Size:	1265 bp
Locus ID:	339976
Cytogenetics:	4q35.2
Protein Families:	Druggable Genome
Gene Summary:	The protein encoded by this gene is a tripartite motif family protein with similarities to E3 ubiquitin-protein ligases. While the function of the encoded protein has not been determined, the orthologous protein in mouse has been shown to bind ubiquitin-specific protease 5 and is involved in the blastocyst development stage. [provided by RefSeq, Sep 2016]
