

Product datasheet for **SC200863**

INCA (CARD17) (NM_001007232) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones

Symbol: INCA

Synonyms: INCA

Mammalian Cell Selection: Neomycin

Vector: pMirTarget (PSI00062)

ACCN: NM_001007232

Insert Size: 146 bp

Insert Sequence: >SC200863 3'UTR clone of NM_001007232
The sequence shown below is from the reference sequence of NM_001007232. The complete sequence of this clone may contain minor differences, such as SNPs.

Restriction Sites: SgfI-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences, e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

Note:	Plasmids are not sterile. For experiments where strict sterility is required, filtration with 0.22um filter is required.
RefSeq:	NM_001007232.1
Summary:	Regulator of procaspase-1/CASP1 activation implicated in the regulation of the proteolytic maturation of pro-IL-1beta/IL1B and its release during inflammation. Inhibits the release of IL1B in response to LPS in monocytes. However, unlike CASP1, do not induce NF-kappa-B activation. [UniProtKB/Swiss-Prot Function]
Locus ID:	440068
MW:	5.6
