

## **Product datasheet for SC204202**

## CACNA1G (NM 198378) Human 3' UTR Clone

**Product data:** 

**Product Type:** 3' UTR Clones

Product Name: CACNA1G (NM 198378) Human 3' UTR Clone

**Vector:** pMirTarget (PS100062)

Symbol: CACNA1G

Synonyms: Ca(V)T.1; Cav3.1; NBR13; SCA42; SCA42ND

**ACCN:** NM\_198378

**Insert Size:** 753 bp

Insert Sequence: >SC204202 3'UTR clone of NM\_198378

The sequence shown below is from the reference sequence of NM\_198378. The complete

sequence of this clone may contain minor differences, such as SNPs.

Blue=Stop Codon Red=Cloning site

TAACAATTGGCAGAGCTCAGAATTCAAGCGATCGCC

CGAGATTTCGATTCCACCGCCGCCTTCTATGAAAGG

**Restriction Sites:** Sgfl-Mlul

**OTI Disclaimer:** Our molecular clone sequence data has been matched to the sequence identifier above as a

point of reference. Note that the complete sequence of this clone is largely the same as the

reference sequence but may contain minor differences, e.g., single nucleotide

polymorphisms (SNPs).

## CACNA1G (NM\_198378) Human 3' UTR Clone - SC204202

**Components:** The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The

package also includes 100 pmols of both the corresponding 5' and 3' vector primers in

separate vials.

**RefSeq:** <u>NM 198378.3</u>

**Summary:** Voltage-sensitive calcium channels mediate the entry of calcium ions into excitable cells, and

are also involved in a variety of calcium-dependent processes, including muscle contraction, hormone or neurotransmitter release, gene expression, cell motility, cell division, and cell death. This gene encodes a T-type, low-voltage activated calcium channel. The T-type

channels generate currents that are both transient, owing to fast inactivation, and tiny, owing to small conductance. T-type channels are thought to be involved in pacemaker activity, low-threshold calcium spikes, neuronal oscillations and resonance, and rebound burst firing. Many alternatively spliced transcript variants encoding different isoforms have been

described for this gene. [provided by RefSeq, Sep 2011]

**Locus ID:** 8913 **MW:** 29.2
