

Product datasheet for SC204501

PORCN (NM 022825) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones

Product Name: PORCN (NM 022825) Human 3' UTR Clone

Vector: pMirTarget (PS100062)

Symbol: PORCN

Synonyms: DHOF; FODH; MG61; PORC; PPN

ACCN: NM_022825

Insert Size: 362 bp

Insert Sequence: >SC204501 3'UTR clone of NM_022825

The sequence shown below is from the reference sequence of NM_022825. The complete

sequence of this clone may contain minor differences, such as SNPs.

Restriction Sites: Sgfl-Mlul

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a

point of reference. Note that the complete sequence of this clone is largely the same as the

reference sequence but may contain minor differences, e.g., single nucleotide

polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The

package also includes 100 pmols of both the corresponding 5' and 3' vector primers in

separate vials.

PORCN (NM_022825) Human 3' UTR Clone - SC204501

Summary: This gene belongs to the evolutionarily conserved porcupine (Porc) gene family. Genes of the

porcupine family encode endoplasmic reticulum proteins with multiple transmembrane domains. Porcupine proteins are involved in the processing of Wnt (wingless and int homologue) proteins. Disruption of this gene is associated with focal dermal hypoplasia, and the encoded protein has been implicated in cancer. Multiple alternatively spliced transcript variants encoding distinct isoforms have been observed. [provided by RefSeq, Aug 2013]

Locus ID: 64840

MW: 13.5
