Midkine (MDK) (NM 001012334) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones

Product Name: Midkine (MDK) (NM 001012334) Human 3' UTR Clone

Vector: pMirTarget (PS100062)

Symbol: MDK

Synonyms: ARAP; MK; NEGF2 ACCN: NM 001012334

Insert Size: 391 bp

>SC204580 3'UTR clone of NM_001012334 **Insert Sequence:**

The sequence shown below is from the reference sequence of NM_001012334. The complete

sequence of this clone may contain minor differences, such as SNPs.

Restriction Sites: Sgfl-Mlul

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a

point of reference. Note that the complete sequence of this clone is largely the same as the

reference sequence but may contain minor differences, e.g., single nucleotide

polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The

package also includes 100 pmols of both the corresponding 5' and 3' vector primers in

separate vials.

NM 001012334.2 RefSeq:

Midkine (MDK) (NM_001012334) Human 3' UTR Clone - SC204580

Summary: This gene encodes a member of a small family of secreted growth factors that binds heparin

and responds to retinoic acid. The encoded protein promotes cell growth, migration, and angiogenesis, in particular during tumorigenesis. This gene has been targeted as a therapeutic for a variety of different disorders. Alternatively spliced transcript variants

encoding multiple isoforms have been observed. [provided by RefSeq, Jul 2012]

Locus ID: 4192 MW: 14.4
