

Product datasheet for **SC205953**

IL11RA (NM_001142784) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones
Product Name: IL11RA (NM_001142784) Human 3' UTR Clone
Vector: pMirTarget (PS100062)
Symbol: IL11RA
Synonyms: CRSDA
ACCN: NM_001142784
Insert Size: 434 bp
Insert Sequence: >SC205953 3'UTR clone of NM_001142784
The sequence shown below is from the reference sequence of NM_001142784. The complete sequence of this clone may contain minor differences, such as SNPs.

Restriction Sites: SgfI-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences, e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq: [NM_001142784.3](#)

Summary: Interleukin 11 is a stromal cell-derived cytokine that belongs to a family of pleiotropic and redundant cytokines that use the gp130 transducing subunit in their high affinity receptors. This gene encodes the IL-11 receptor, which is a member of the hematopoietic cytokine receptor family. This particular receptor is very similar to ciliary neurotrophic factor, since both contain an extracellular region with a 2-domain structure composed of an immunoglobulin-like domain and a cytokine receptor-like domain. Multiple alternatively spliced transcript variants have been found for this gene. [provided by RefSeq, Jun 2012]

Locus ID: 3590

MW: 16.3
