

Product datasheet for **SC205979**

ACYP1 (NM_203488) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones
Product Name: ACYP1 (NM_203488) Human 3' UTR Clone
Vector: pMirTarget (PS100062)
Symbol: ACYP1
Synonyms: ACYPE
ACCN: NM_203488
Insert Size: 474 bp
Insert Sequence: >SC205979 3'UTR clone of NM_203488
The sequence shown below is from the reference sequence of NM_203488. The complete sequence of this clone may contain minor differences, such as SNPs.

Restriction Sites: SgfI-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences, e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq: [NM_203488.1](#)

[View online »](#)

Summary: This gene is a member of the acylphosphatase family. The encoded protein is a small cytosolic enzyme that catalyzes the hydrolysis of the carboxyl-phosphate bond of acylphosphates. Two isoenzymes have been isolated and described based on their tissue localization: erythrocyte (common) type acylphosphatase encoded by this gene, and muscle type acylphosphatase. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Oct 2014]

Locus ID: 97
