

Product datasheet for **SC206375**

AAMP (NM_001087) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones
Product Name: AAMP (NM_001087) Human 3' UTR Clone
Vector: pMirTarget (PS100062)
Symbol: AAMP
ACCN: NM_001087
Insert Size: 434 bp
Insert Sequence: >SC206375 3'UTR clone of NM_001087

The sequence shown below is from the reference sequence of NM_001087. The complete sequence of this clone may contain minor differences, such as SNPs.

Restriction Sites: Sgfl-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences, e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq: [NM_001087.5](#)

[View online »](#)

Summary: The gene is a member of the immunoglobulin superfamily. The encoded protein is associated with angiogenesis, with potential roles in endothelial tube formation and the migration of endothelial cells. It may also regulate smooth muscle cell migration via the RhoA pathway. The encoded protein can bind to heparin and may mediate heparin-sensitive cell adhesion. [provided by RefSeq, Oct 2014]

Locus ID: 14
