

Product datasheet for **SC206660**

ETV7 (NM_016135) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones
Product Name: ETV7 (NM_016135) Human 3' UTR Clone
Vector: pMirTarget (PS100062)
Symbol: ETV7
Synonyms: TEL-2; TEL2; TELB
ACCN: NM_016135
Insert Size: 481 bp
Insert Sequence: >SC206660 3'UTR clone of NM_016135
The sequence shown below is from the reference sequence of NM_016135. The complete sequence of this clone may contain minor differences, such as SNPs.
Blue=Stop Codon **Red**=Cloning site

Restriction Sites: Sgfl-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences , e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq: [NM_016135.4](#)

Summary: The protein encoded by this gene belongs to the ETS family of transcription factors, which is a large group of evolutionarily conserved transcriptional regulators that play an important role in a variety of cellular processes throughout development and differentiation, and are involved in oncogenesis as well. This protein is predominantly expressed in hematopoietic tissues. Several alternatively spliced transcript variants encoding different isoforms have been described for this gene (PMID:11108721).[provided by RefSeq, May 2011]

Locus ID: 51513

MW: 17.2
