Product datasheet for SC206921

Fibulin 2 (FBLN2) (NM_001165035) Human 3' UTR Clone

Product data:

Product Type:	3' UTR Clones
Product Name:	Fibulin 2 (FBLN2) (NM_001165035) Human 3' UTR Clone
Symbol:	Fibulin 2
Mammalian Cell Selection:	Neomycin
Vector:	pMirTarget (PS100062)
ACCN:	NM_001165035
Insert Size:	515 bp
Insert Sequence:	>SC206921 3'UTR clone of NM_001165035 The sequence shown below is from the reference sequence of NM_001165035. The complete sequence of this clone may contain minor differences, such as SNPs. Restriction Sites:	SgfI-MluI
OTI Disclaimer:	Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences , e.g., single nucleotide polymorphisms (SNPs).
Components:	The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq:	<u>NM_001165035.2</u>
Summary:	This gene encodes an extracellular matrix protein, which belongs to the fibulin family. This protein binds various extracellular ligands and calcium. It may play a role during organ development, in particular, during the differentiation of heart, skeletal and neuronal structures. Alternatively spliced transcript variants encoding different isoforms have been identified. [provided by RefSeq, Jul 2008]
Locus ID:	2199
MW:	19.9
