

Product datasheet for **SC207276**

SMARCA6 (HELLS) (NM_018063) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones
Product Name: SMARCA6 (HELLS) (NM_018063) Human 3' UTR Clone
Vector: pMirTarget (PS100062)
Symbol: HELLS
Synonyms: ICF4; LSH; Nbla10143; PASG; SMARCA6
ACCN: NM_018063
Insert Size: 507 bp
Insert Sequence: >SC207276 3'UTR clone of NM_018063
The sequence shown below is from the reference sequence of NM_018063. The complete sequence of this clone may contain minor differences, such as SNPs.

Restriction Sites: SgfI-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences, e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq: [NM_018063.5](#)

Summary: This gene encodes a lymphoid-specific helicase. Other helicases function in processes involving DNA strand separation, including replication, repair, recombination, and transcription. This protein is thought to be involved with cellular proliferation and may play a role in leukemogenesis. Alternatively spliced transcript variants encoding different isoforms have been identified. [provided by RefSeq, Jan 2014]

Locus ID: 3070

MW: 19.4
