

Product datasheet for **SC208137**

DGKZ (NM_201533) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones
Product Name: DGKZ (NM_201533) Human 3' UTR Clone
Vector: pMirTarget (PS100062)
Symbol: DGKZ
Synonyms: DAGK5; DAGK6; DGK-ZETA; hDGKzeta
ACCN: NM_201533
Insert Size: 645 bp
Insert Sequence: >SC208137 3'UTR clone of NM_201533
The sequence shown below is from the reference sequence of NM_201533. The complete sequence of this clone may contain minor differences, such as SNPs.
Blue=Stop Codon **Red**=Cloning site

Restriction Sites: SgfI-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences, e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq: [NM_201533.3](#)

Summary: The protein encoded by this gene belongs to the eukaryotic diacylglycerol kinase family. It may attenuate protein kinase C activity by regulating diacylglycerol levels in intracellular signaling cascade and signal transduction. Alternative splicing occurs at this locus and multiple transcript variants encoding distinct isoforms have been identified. [provided by RefSeq, Nov 2010]

Locus ID: 8525

MW: 22.4
