

Product datasheet for **SC208235**

Sumo 1 (SUMO1) (NM_001005781) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones
Product Name: Sumo 1 (SUMO1) (NM_001005781) Human 3' UTR Clone
Vector: pMirTarget (PS100062)
Symbol: SUMO1
Synonyms: DAP1; GMP1; OFC10; PIC1; SENP2; SMT3; SMT3C; SMT3H3; UBL1
ACCN: NM_001005781
Insert Size: 640 bp
Insert Sequence: >SC208235 3' UTR clone of NM_001005781
The sequence shown below is from the reference sequence of NM_001005781. The complete sequence of this clone may contain minor differences, such as SNPs. **Red**=Cloning site
Blue=Stop Codon

Components:	The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.
RefSeq:	NM_001005781.1
Summary:	This gene encodes a protein that is a member of the SUMO (small ubiquitin-like modifier) protein family. It functions in a manner similar to ubiquitin in that it is bound to target proteins as part of a post-translational modification system. However, unlike ubiquitin which targets proteins for degradation, this protein is involved in a variety of cellular processes, such as nuclear transport, transcriptional regulation, apoptosis, and protein stability. It is not active until the last four amino acids of the carboxy-terminus have been cleaved off. Several pseudogenes have been reported for this gene. Alternate transcriptional splice variants encoding different isoforms have been characterized. [provided by RefSeq, Jul 2008]
Locus ID:	7341
