

Product datasheet for **SC208588**

NELL2 (NM_006159) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones
Product Name: NELL2 (NM_006159) Human 3' UTR Clone
Vector: pMirTarget (PS100062)
Symbol: NELL2
Synonyms: NRP2
ACCN: NM_006159
Insert Size: 689 bp
Insert Sequence: >SC208588 3'UTR clone of NM_006159
The sequence shown below is from the reference sequence of NM_006159. The complete sequence of this clone may contain minor differences, such as SNPs.
Blue=Stop Codon **Red**=Cloning site

Restriction Sites: SgfI-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences, e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq: [NM_006159.2](#)

Summary: The protein encoded by this gene is a glycoprotein containing several von Willebrand factor C domains and epidermal growth factor (EGF)-like domains. The encoded protein acts as a homotrimer and is found in the cytoplasm. Several variants encoding a few different isoforms exist, and at least one isoform appears to be a secreted protein. Studies in mouse suggest that this protein plays a role in neural cell growth and differentiation as well as in oncogenesis. [provided by RefSeq, Feb 2009]

Locus ID: 4753
