

Product datasheet for SC208854

IL18BP (NM 001145057) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones

Product Name: IL18BP (NM_001145057) Human 3' UTR Clone

Symbol: IL18BP

Synonyms: FVH; IL18BPa

Mammalian Cell

Selection:

Neomycin

Vector: pMirTarget (PS100062)

ACCN: NM_001145057

Insert Size: 712 bp

Insert Sequence: >SC208854 3'UTR clone of NM_001145057

The sequence shown below is from the reference sequence of NM_001145057. The complete

sequence of this clone may contain minor differences, such as SNPs.

Restriction Sites: Sgfl-Mlul

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a

point of reference. Note that the complete sequence of this clone is largely the same as the

reference sequence but may contain minor differences, e.g., single nucleotide

polymorphisms (SNPs).

IL18BP (NM_001145057) Human 3' UTR Clone - SC208854

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The

package also includes 100 pmols of both the corresponding 5' and 3' vector primers in

separate vials.

RefSeq: NM 001145057.1

Summary: The protein encoded by this gene functions as an inhibitor of the proinflammatory cytokine,

IL18. It binds IL18, prevents the binding of IL18 to its receptor, and thus inhibits IL18-induced IFN-gamma production, resulting in reduced T-helper type 1 immune responses. This protein is constitutively expressed and secreted in mononuclear cells. Elevated level of this protein is

detected in the intestinal tissues of patients with Crohn's disease. Alternatively spliced transcript variants encoding different isoforms have been described for this gene. [provided

transcript variants encoding different isoforms have been described for this gene. [provide by RefSeq, Feb 2011]
