

Product datasheet for **SC209287**

DLL1 (NM_005618) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones
Product Name: DLL1 (NM_005618) Human 3' UTR Clone
Symbol: DLL1
Synonyms: Delta; DELTA1; DL1; NEDBAS
Mammalian Cell Selection: Neomycin
Vector: pMirTarget (PS100062)
ACCN: NM_005618
Insert Size: 701 bp
Insert Sequence: >SC209287 3' UTR clone of NM_005618

The sequence shown below is from the reference sequence of NM_005618. The complete sequence of this clone may contain minor differences, such as SNPs. **Red**=Cloning site
Blue=Stop Codon

OTI Disclaimer:	Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences , e.g., single nucleotide polymorphisms (SNPs).
Components:	The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.
RefSeq:	<u>NM_005618.3</u>
Summary:	DLL1 is a human homolog of the Notch Delta ligand and is a member of the delta/serrate/jagged family. It plays a role in mediating cell fate decisions during hematopoiesis. It may play a role in cell-to-cell communication. [provided by RefSeq, Jul 2008]
Locus ID:	28514
