

Product datasheet for **SC210141**

Decorin (DCN) (NM_133503) Human 3' UTR Clone

Product data:

Product Type:	3' UTR Clones
Product Name:	Decorin (DCN) (NM_133503) Human 3' UTR Clone
Vector:	pMirTarget (PS100062)
Symbol:	DCN
Synonyms:	CSCD; DSPG2; PG40; PGII; PGS2; SLRR1B
ACCN:	NM_133503
Insert Size:	2000 bp

[View online »](#)

Insert Sequence: >SC210141 3'UTR clone of NM_133503
 The sequence shown below is from the reference sequence of NM_133503. The complete sequence of this clone may contain minor differences, such as SNPs.
 Blue=Stop Codon Red=Cloning site

Restriction Sites: SgfI-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences, e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq: [NM_133503.4](#)

Summary:

This gene encodes a member of the small leucine-rich proteoglycan family of proteins. Alternative splicing results in multiple transcript variants, at least one of which encodes a preproprotein that is proteolytically processed to generate the mature protein. This protein plays a role in collagen fibril assembly. Binding of this protein to multiple cell surface receptors mediates its role in tumor suppression, including a stimulatory effect on autophagy and inflammation and an inhibitory effect on angiogenesis and tumorigenesis. This gene and the related gene biglycan are thought to be the result of a gene duplication. Mutations in this gene are associated with congenital stromal corneal dystrophy in human patients.
