

Product datasheet for **SC212425**

LARP2 (LARP1B) (NM_018078) Human 3' UTR Clone

Product data:

Product Type:	3' UTR Clones
Product Name:	LARP2 (LARP1B) (NM_018078) Human 3' UTR Clone
Symbol:	LARP2
Synonyms:	LARP2
Mammalian Cell Selection:	Neomycin
Vector:	pMirTarget (PS100062)
ACCN:	NM_018078
Insert Size:	1965 bp

[View online »](#)

Insert Sequence: >SC212425 3'UTR clone of NM_018078
The sequence shown below is from the reference sequence of NM_018078. The complete sequence of this clone may contain minor differences, such as SNPs.
Blue=Stop Codon **Red**=Cloning site

Restriction Sites: SgfI-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences , e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq: [NM_018078.4](#)

Summary:	This gene encodes a protein containing domains found in the La related protein of <i>Drosophila melanogaster</i>. La motif-containing proteins are thought to be RNA-binding proteins, where the La motif and adjacent amino acids fold into an RNA recognition motif. The La motif is also found in proteins unrelated to the La protein. Alternative splicing has been observed at this locus and multiple variants, encoding distinct isoforms, are described. Additional splice variation has been identified but the full-length nature of these transcripts has not been determined. [provided by RefSeq, Jun 2013]
