

Product datasheet for **SC212980**

AP3D1 (NM_001077523) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones
Product Name: AP3D1 (NM_001077523) Human 3' UTR Clone
Vector: pMirTarget (PS100062)
Symbol: AP3D1
Synonyms: ADTD; hBLVR
ACCN: NM_001077523
Insert Size: 1209 bp
Insert Sequence: >SC212980 3'UTR clone of NM_001077523
 The sequence shown below is from the reference sequence of NM_001077523. The complete sequence of this clone may contain minor differences, such as SNPs.

OTI Disclaimer:	Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences , e.g., single nucleotide polymorphisms (SNPs).
Components:	The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.
RefSeq:	NM_001077523.1
Summary:	The protein encoded by this gene is a subunit of the AP3 adaptor-like complex, which is not clathrin-associated, but is associated with the golgi region, as well as more peripheral structures. The AP-3 complex facilitates the budding of vesicles from the golgi membrane, and may be directly involved in trafficking to lysosomes. This subunit is implicated in intracellular biogenesis and trafficking of pigment granules, and possibly platelet dense granules and neurotransmitter vesicles. Defects in this gene are a cause of a new type of Hermansky-Pudlak syndrome. [provided by RefSeq, Feb 2017]
Locus ID:	8943
