

Product datasheet for SC213668

LRBA (NM_006726) Human 3' UTR Clone

Product data:

Product Type: 3' UTR Clones
Product Name: LRBA (NM_006726) Human 3' UTR Clone
Vector: pMirTarget (PS100062)
Symbol: LRBA
Synonyms: BGL; CDC4L; CVID8; LAB300; LBA
ACCN: NM_006726
Insert Size: 1108 bp
Insert Sequence: >SC213668 3'UTR clone of NM_006726
 The sequence shown below is from the reference sequence of NM_006726. The complete sequence of this clone may contain minor differences, such as SNPs.

OTI Disclaimer:	Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences , e.g., single nucleotide polymorphisms (SNPs).
Components:	The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.
RefSeq:	NM_006726.4
Summary:	The protein encoded by this gene is a member of the WDL-BEACH-WD (WBW) gene family. Its expression is induced in B cells and macrophages by bacterial lipopolysaccharides (LPS). The encoded protein associates with protein kinase A and may be involved in leading intracellular vesicles to activated receptor complexes, which aids in the secretion and/or membrane deposition of immune effector molecules. Defects in this gene are associated with the disorder common variable immunodeficiency-8 with autoimmunity. Two transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Dec 2012]
Locus ID:	987
MW:	43.2
