

Product datasheet for **SC214459**

PANK1 (NM_148978) Human 3' UTR Clone

Product data:

Product Type:	3' UTR Clones
Product Name:	PANK1 (NM_148978) Human 3' UTR Clone
Vector:	pMirTarget (PS100062)
Symbol:	PANK1
Synonyms:	PANK
ACCN:	NM_148978
Insert Size:	2000 bp

[View online »](#)

Insert Sequence: >SC214459 3'UTR clone of NM_148978
 The sequence shown below is from the reference sequence of NM_148978. The complete sequence of this clone may contain minor differences, such as SNPs.
 Blue=Stop Codon Red=Cloning site

Restriction Sites: SgfI-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences, e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq: [NM_148978.3](#)

Summary: This gene encodes a member of the pantothenate kinase family. Pantothenate kinases are key regulatory enzymes in the biosynthesis of coenzyme A (CoA). The encoded protein catalyzes the first and rate-limiting enzymatic reaction in CoA biosynthesis and is regulated by CoA through feedback inhibition. Alternatively spliced transcript variants encoding multiple isoforms have been observed for this gene. This gene and an intronic miRNA on the same strand are co-regulated by the tumor suppressor p53 (see PMID 20833636). [provided by RefSeq, Apr 2011]
