

## Product datasheet for **SC215393**

### **C17orf76 (LRRC75A) (NM\_001113567) Human 3' UTR Clone**

#### **Product data:**

|                           |                                                      |
|---------------------------|------------------------------------------------------|
| Product Type:             | 3' UTR Clones                                        |
| Product Name:             | C17orf76 (LRRC75A) (NM_001113567) Human 3' UTR Clone |
| Symbol:                   | C17orf76                                             |
| Synonyms:                 | C17orf76; FAM211A                                    |
| Mammalian Cell Selection: | Neomycin                                             |
| Vector:                   | pMirTarget (PS100062)                                |
| ACCN:                     | NM_001113567                                         |
| Insert Size:              | 2000 bp                                              |

| <b>OTI Disclaimer:</b>    | Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences , e.g., single nucleotide polymorphisms (SNPs).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Components:</b>        | The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
