

Product datasheet for **SC216051**

FEM1A (NM_018708) Human 3' UTR Clone

Product data:

Product Type:	3' UTR Clones
Product Name:	FEM1A (NM_018708) Human 3' UTR Clone
Symbol:	FEM1A
Synonyms:	EPRAP
Mammalian Cell Selection:	Neomycin
Vector:	pMirTarget (PS100062)
ACCN:	NM_018708
Insert Size:	2000 bp

[View online »](#)

Insert Sequence: >SC216051 3'UTR clone of NM_018708
The sequence shown below is from the reference sequence of NM_018708. The complete sequence of this clone may contain minor differences, such as SNPs.
Blue=Stop Codon **Red**=Cloning site

Restriction Sites: SgfI-MluI

OTI Disclaimer: Our molecular clone sequence data has been matched to the sequence identifier above as a point of reference. Note that the complete sequence of this clone is largely the same as the reference sequence but may contain minor differences , e.g., single nucleotide polymorphisms (SNPs).

Components: The cDNA clone is shipped in a 2-D bar-coded Matrix tube as 10 ug dried plasmid DNA. The package also includes 100 pmols of both the corresponding 5' and 3' vector primers in separate vials.

RefSeq: [NM_018708.3](#)

Summary: Probable component of an E3 ubiquitin-protein ligase complex, in which it may act as a substrate recognition subunit (By similarity). May participate in antiinflammatory signaling via its interaction with PTGER4.[UniProtKB/Swiss-Prot Function]

Locus ID: 55527

MW: 73.5
