

Product datasheet for **SM1009P**

Human Lambda Light Chain Mouse Monoclonal Antibody [Clone ID: Mc24-IC6]

Product data:

Product Type:	Primary Antibodies
Clone Name:	Mc24-IC6
Applications:	ELISA, FC
Recommended Dilution:	Flow cytometry: 1/10 - 1/20; use 10 µl of the suggested working dilution to label 10e6 cells or 100µl washed whole blood. ELISA
Reactivity:	Human
Host:	Mouse
Isotype:	IgG1
Clonality:	Monoclonal
Immunogen:	Purified human IgG.
Specificity:	This antibody recognises human lambda light chains, and shows no cross- reactivity to kappa light chains or to immunoglobulin heavy chains.
Formulation:	PBS buffer pH 7.4 with 0.09% sodium azide as preservative State: Purified State: Liquid immunoglobulin fraction
Concentration:	lot specific
Purification:	Protein A affinity purified
Conjugation:	Unconjugated
Storage:	Store the antibody at 4-8°C for one month or at -20°C for longer. This product should be stored undiluted. This product is photosensitive and should be protected from the light. Avoid repeated freezing and thawing.
Stability:	Shelf life: one year from despatch.

Background:

All five immunoglobulin classes share the same basic four polypeptide chain structure of two heavy-chains and two light chains. There are five heavy chain types, and two light-chain types (Kappa and Lambda) both having a molecular weight of 22.5kDa. Any heavy-chain type can associate with either light-chain type, but on any immunoglobulin molecule both light-chains are of the same type. Kappa and Lambda consist of a variable region and a constant region and can easily be differentiated by the antigenic properties of the constant region. The ratio of Kappa to Lambda is 70:30, the vast majority of which is bound to heavy-chain in immunoglobulin. In normal individuals low levels of free light-chain are present in serum (kappa, 1.6-15.2 mg/L; Lambda, 0.4-4.2mg/L), with the occurrence of multiple myeloma or other B-cell malignancies these levels can be greatly elevated and can be found at high levels in the urine (Bence-Jones proteins).
