BLOC1S1 Human siRNA Oligo Duplex (Locus ID 2647)

Product data:

Product Type: siRNA Oligo Duplexes

HPLC purified **Purity:**

Quality Control: Tested by ESI-MS

Available with shipment **Sequences:**

Stability: One year from date of shipment when stored at -20°C.

of transfections: Approximately 330 transfections/2nmol in 24-well plate under optimized conditions (final

conc. 10 nM).

Single siRNA duplex (10nmol) can be ordered. Note:

RefSeq: NM 001487, NR 037655, NR 037656, NR 037657

UniProt ID: P78537

Synonyms: BLOS1; BORCS1; GCN5L1; MICoA; RT14

Components: BLOC1S1 (Human) - 3 unique 27mer siRNA duplexes - 2 nmol each (Locus ID 2647)

Included - SR30004, Trilencer-27 Universal Scrambled Negative Control siRNA Duplex - 2 nmol

Included - SR30005, RNAse free siRNA Duplex Resuspension Buffer - 2 ml

BLOC1S1 is a component of the ubiquitously expressed BLOC1 multisubunit protein complex. **Summary:**

> BLOC1 is required for normal biogenesis of specialized organelles of the endosomallysosomal system, such as melanosomes and platelet dense granules (Starcevic and

Dell'Angelica, 2004 [PubMed 15102850]).[supplied by OMIM, Mar 2008]

Performance OriGene guarantees that at least two of the three Dicer-Substrate duplexes in the kit will **Guaranteed:**

provide at least 70% or more knockdown of the target mRNA when used at 10 nM

concentration by quantitative RT-PCR when the TYE-563 fluorescent transfection control duplex (cat# SR30002) indicates that >90% of the cells have been transfected and the HPRT

positive control (cat# SR30003) provides 90% knockdown efficiency.

For non-conforming siRNA, requests for replacement product must be made within ninety (90) days from the date of delivery of the siRNA kit. To arrange for a free replacement with newly designed duplexes, please contact Technical Services at techsupport@origene.com. Please provide your data indicating the transfection efficiency and measurement of gene expression knockdown compared to the scrambled siRNA control (quantitative RT-PCR data

required).
